SUMMARY

I hold a Bachelor's degree in Computer Engineering and specialize in software development across backend, frontend, and full-stack environments. I have experience with modern frameworks such as React, Angular, and ASP.NET, and I actively deploy applications using Google Cloud, Firebase, and AWS.

I'm a self-motivated learner who continually enhances my technical skills through hands-on practice and collaboration. Working with my team, we use Git, GitHub, and Docker to build scalable and efficient projects. Currently, we are developing large-scale applications such as school management and store systems. By exploring CRM solutions, we are deepening our understanding of how companies operate and how technology can optimize their workflows.

EXPERIENCE

Software Programmer & Full Stack Developer

Self-Learning Projects

Aug 2024 – Present

Jordan

Built full-stack web apps using ASP.NET Core, Angular, React, Vue, and Firebase.
Explored new frameworks and followed clean code and Git practices.

Full Stack Developer Trainee

Orange Yarmouk Invention Lab (OYIL)

Feb 2024 – Jul 2024

Irbid, Jordan

Developed full-stack apps using ASP.NET Core, Angular, and SQL Server.
Created RESTful APIs and collaborated with peers using Git.

PROJECTS

Multi-Store

React (TS), Firebase

May 2025 – On Going

<https://jehad-store.web.app>

Developed a multi-store platform with admin and customer interfaces.
Collaborated with a team using Git and Firebase backend.

Drone Tracing System

React.js, Socket

Jul 2025 – Jul 2025

<https://drone-tracing-system.web.app>

Built a drone tracking dashboard integrated but i have no longer access to drons

Issa Book Library

Vue.js, Angular, Firebase

Apr 2025 – May 2025

<https://islamicbooks-f9998.web.app/>

Created a private library app for managing and securing personal books.

TECHNICAL SKILLS

Programming Languages: C#, C++, C, TypeScript, JavaScript, SQL, HTML, CSS

Frameworks: React, Angular, ASP.NET Core, Vue.js

Frontend Development: HTML5, CSS3, TypeScript, JavaScript, Angular, Vue.js, Bootstrap

Backend Development: ASP.NET Core Web API, MVC.NET, Firebase Functions, SQL Server

Databases: SQL Server, Firebase Firestore, Realtime Database, MySQL, xampp

Cloud & DevOps: AWS (EC2, S3), Firebase Hosting, GitHub Actions, Docker, Git, GitHub, GitLab

Other Tools & Skills & IDE: Postman, Object-Oriented Programming (OOP), Data Structures, VHDL, Arduino, Ubuntu Linux, Fedora, Windows Visual Studio, VS code Visual Studio Code

EDUCATION

Yarmouk University

B.Eng. Tech. in Computer Engineering

Irbid, Jordan

Sep 2019 – Jul 2024

CERTIFICATES

Full Stack Development with ASP.NET Core and Angular – Orange Yarmouk Invention Lab

ASP.NET Web Development Training – Queen Rania Center

Firebase, Docker, Cloud AWS, Problem-Solving, – Self-Learning & Practice
