Summary

Computer Engineer passionate about applying knowledge to real-world challenges and continuously developing technical skills. Skilled in both software and hardware, with a focus on high-quality performance and teamwork. Eager to contribute to innovative projects and grow professionally by solving complex problems in dynamic environments, looking For new opportunity to increase my knowledge and my ability.

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, Python, C, C++, C#, SQL, MySQL

Frameworks & Libraries: Angular, Vue.js, ASP.NET, React, Bootstrap

Tools & Concepts: APIs, OOP, Data Structures, GitHub, Git, SQL Server, Firebase

Experience

Freelancer — Aug 2024 – Present
Software Developer — *Kuwait, Jordan*
- Developed software solutions for small businesses and startups.
- Delivered tailored tools to improve workflow.

Orange Yarmouk Invention Lab (OYIL) — Feb 2024 – Jul 2024
Full Stack Developer Trainee — *Irbid, Jordan*
- Built full-stack web apps using ASP.NET, Angular, and SQL Server.
- Gained hands-on experience through team projects.

Projects

J-Store Platform | *React, TypeScript, Firebase* — Ongoing
- Cofounded a scalable web platform allowing any market to launch its own customized online store.
- Built a flexible system where clients purchase a voucher and configure the site according to their business needs.
- Designed for full adaptability—products, branding, layout, and content can all be tailored by each store owner.
- Enabled non-technical users to go live with a full-featured store through an intuitive dashboard.

Issa Books Website | *Angular, Vue.js, Firebase* — Mar 2025 – Apr 2025
- Built and deployed a website to manage and display an author's books.
- Developed an admin panel to manage books and post news.

Company Website | *HTML, CSS, JavaScript, Bootstrap, Python* — Jan 2025
- Designed a company website with a hiring form.
- Enabled HR to review CV submissions and form data efficiently.

Banking System | *Angular, TypeScript, SQL, API* — May 2024 – Jun 2024
- Developed secure banking features: authentication, transactions, and account management.

Hospital Management System | *MVC.NET, SQL, Razor View* — Apr 2024
- Digitalized patient data, appointments, and staff/inventory management.

Education

Yarmouk University — Aug 2019 – Sep 2024
Bachelor of Engineering in Computer Engineering — *Irbid, Jordan*
- **Relevant Coursework:** Data Structures, Object-Oriented Programming (OOP), System Programming, Operating Systems, C++, C, C#, Windows Forms, Database Systems.
